 The improvement of the state's roads and improved sanitary conditions in the state.

NATIONAL
 The improvement of the nation's roads and improved sanitary conditions in the nation.
 The improvement of the nation's roads and improved sanitary conditions in the nation.

Avoiding the Dole

It hardly seems a good time to get worried about the future, but the fact that continued mechanization of industry will result in more leisure time than they know how to use, is a fact that does not last forever, and sooner or later, the wheels are turning again, we shall have to face the fact that the world's work can be done in a lot less time than used to be the case.

William John Cooper, United States commissioner of the Census, pointed out the other day that we are still going to have an unemployment problem on our hands even when the war has returned, and he remarked, very pertinently, that many factories will not employ a man past 45. Shelling out means an old age pension system. Periodic unemployment means unemployment insurance, or doles, or something.

Now all of which, of course, simply means that if we are to go on in the future as we have in the past, we must take the unpleasant fact that the men for whom industry has room must be taken care of somehow.

A year ago, the word, "dole," was a word at which all men shuddered. A few days ago a bill providing for a federal dole came within a mere handful of votes of passing the U. S. Senate. The word is not a frightening at it is another year it will be even less so. Gradually and surely, we are learning something.

Now all of the things that have been said against the dole are quite true. England provides thousands of living examples of the way in which the dole can sap manhood of reliance and energy. But there is only one way of avoiding the dole—to rearrange industry so that there will be work for an honest, capable and reliable workman. Present conditions, to be sure, are abnormal. But when normal times return we shall have to keep that fact in mind. Unemployment, in other words, represents our greatest problem that is with us in good times as well as in bad times.

A New Begging Racket

The magazine Variety prints a dispatch from Hollywood that is surely one of the news stories produced by the depression. It is a story telling how panhandlers in the film capital have taken to hiring women and children to act as "supporting cast" for beggars.

It works like this; a beggar will engage a woman and child and will take them along as he goes down the street asking for quarters. Men who would ordinarily give him nothing grow soft-hearted when they see his supposed wife and child, and shell out liberally. The beggar, Variety says, can average from \$10 to \$14 a day in profit, after paying his assistant \$4 a day.

The chief moral to be drawn from this little tale is: don't give money to street beggars. Make your contribution to a regular charitable organization and let it do the rest.

No "War Birds" Wanted

CANADIAN dispatches reported the other day that 80 aviators, released from the Canadian Royal Air Force recently because of a governmental economy program, have offered their services to the Chinese government in its fight with Japan; but the Chinese consul general in Canada, after talking them over, explained that he knew of no way in which his country could take advantage of the offer, since no preparations have been made for taking on foreign flyers.

Only one American, to date, has served under fire as a pilot for the Chinese aviation corps—and he was killed recently when Japanese airmen shot him down in flames a few days ago.

In this connection it is worth remembering that the U. S. general in Shanghai recently warned American aviators that Shanghai is no place for be-winged soldiers these days. The Chinese air force is small, and it evidently is not going to recruit airmen from this side of the Pacific. The Chinese aviator who would like to do a little fighting will, apparently, have to possess his soul in patience for a while.

Handshaking Is Out!

The action of President Hoover's that ought to win whole-hearted support all over the United States is his recent decision to call off the traditional hand-shaking receptions at the White House on the ground that they "present too much of a task for the president at such a time as this."

There can hardly be any argument about the justification of this action. The president of the United States is the busiest and most active man in the world. To expect him to waste his time and exhaust his strength in shaking hands with a crowd of complete strangers every

"Jack"-in-the Box!

Do You Remember?

THIRTY YEARS AGO

Milton Holt was down from Washington today.

Dr. C. E. Gonnell of DeAnn. was in town Tuesday.

Miss Helen Lowery is again an employee of the Hope Telephone company.

Dorsey, Robert and Hamilton McRae and Will Cantley attended a dance at Fulton Wednesday night.

TEN YEARS AGO

Henry Hitt of the Geo. W. Robison & Co. store, is to build a residence in West Fourth Avenue. C. A. Powell has the contract.

"Egg twenty cents a dozen." From an advertisement in The Star of Hope.

Jim Ferguson, of Nashville, was in the city this morning. Jim's brothers, Claude, Henry, Ware and Charley, are all engaged in the newspaper business, but Jim Escaped—he is a real estate man.

Only state revenues may be used for maintenance so long as the federal aid from the appropriation measure pending in the house will depend upon the ability of the state highway commission to maintain the roads already paid for in part with federal money, Frank D. Huggins, senior engineer in charge of the United States bureau of public roads office in Little Rock, said Saturday.

Only state revenues may be used for maintenance so long as the federal aid from the appropriation measure pending in the house will depend upon the ability of the state highway commission to maintain the roads already paid for in part with federal money, Frank D. Korean Lespedeza Is Valuable Crop

Farmer Near Fayetteville Has Splendid Results in Growing Crop

Chas. R. Stephens of Route 1, Fayetteville, Ark., is one of the number of Washington county farmers who have made a success of growing Korean Lespedeza. This is a legume similar to Japan Clover but grows taller. While it is a nitrogen gathering plant, special inoculation is not necessary as practically all our land is already inoculated for it. Neither is liming or reseeded necessary.

Mr. Stephens recommends 15 to 20 pounds of seed per acre for a crop the first season. Five pounds per acre will give a good thick stand for future years and some grazing the first season. A good many now sow on this way. Two pounds per acre on used pastures without preparation or covering will double the pasturage in two or three years.

It should be cut out for hay in full bloom, about August. It will put out enough new growth to reseed. Yields about a ton of fine hay for each 20 to 25 bushels of corn the land would make per acre.

It will furnish green pasture after Japan Clover and other pasture plants are burned brown by the hot dry weather. One of its greatest points is that it mats over the soil so closely that soil washing is impossible.

This crop will grow on any soil. If it is too poor to grow ordinary crops, Korean Lespedeza will cover it up and stop it from washing, and gradually build it up to the point that other crops may be grown.

The hay is very leafy and analyzes right along with alfalfa. An analysis of pasture specimens showed more protein than alfalfa being pastured and more carbohydrates than Bermuda grass being pastured.

MAGNOLIA—Plans are being made for the third oil test on the Rhea-Kitchens-Tullnawider lease. John W. Rhea of Waldo is active in the promotion and says equipment is on the ground and that it is expected work will begin this week. A test was made on this lease in October with good indications of oil, but was abandoned on account of leaky casing. The test was promoted by W. D. Wingfield and Mrs. Mamie Smith McCurrie of El Dorado.

The first test on this lease was made 8 or 10 years ago on the Cant farm.

MAGNOLIA—Under direction of G. G. Martel and Earl W. Brannon the A. & M. college band will present a minstrel show on March 18. There will be 20 boys and girls in the chorus, most of them from the glee club. There will be one double quartet, a trio, and a duet with orchestra accompaniment. Funds derived from the minstrel will be used by the band to help pay expenses of a trip to the Confederate Veterans reunion at Richmond, Va., this summer.

One step at a time, and that well placed.
We reach the grandest height;
One stroke at a time, earth's hidden stores
Will slowly come to light;
One seed at a time; and the forest grows;
One drop at a time and the river flows
Into the boundless sea;
One grain of knowledge, and that well stored,
Another and more on them;
As time rolls on your mind will shine
With many a garnered gem
Of thought and wisdom, And time will tell
"One thing at a time, and that done well."
Is wisdom's proven rule.—Selected.

Mrs. B. F. Ellington and little son of Atlanta, Tex., are guests of Mrs. Ellington's parents, Mr. and Mrs. Arch Moore.

The March meeting of the Brookwood Parent Teachers association will be held on Wednesday afternoon at 3 o'clock at the Brookwood school. All members are urged to be present.

Miss Martha Stroud has returned from a week's vacation in Chillicothe, Mo.

The Paisley Parent Teachers association will hold their regular monthly meeting on Wednesday afternoon at 3 o'clock at the Paisley school. In keeping with the bi-centennial celebrations, a George Washington program will be rendered, and it is urged that all members be present.

Mr. and Mrs. J. L. Tedder and family, spent Sunday visiting in Hot Springs.

Mr. and Mrs. Corbin Foster and their guest Miss Clyde Martin spent Sunday visiting with friends and relatives in Atlanta, Tex.

The Pat Cleburn Chapter U. D. C. will hold their March meeting on Thursday afternoon at 2:30 o'clock at the home of Mrs. S. L. Bracy, with Mrs. George Spragins, Mrs. Ida Boyett and Mrs. J. F. Gorin as associate hostesses.

Friends and relatives will be glad to know that Mrs. F. G. Garner, who recently underwent an operation at the Josephine hospital, is reported as improving.

Mrs. H. A. West and Miss Hattie Anne Field were Tuesday visitors in Texarkana.

George Cameron, lately of Louisville, Ky., has spent the past few days visiting with his mother, at the home of Mr. and Mrs. John S. Gibson, Sr., en route to Fort Worth, Tex., where he will enter law school.

After a week end visit with friends and relatives in the city, Mrs. Ed Lipscomb returned on Monday afternoon to her home in Little Rock.

Ensigns
A MINIATURE MUSICAL COMEDY

18 PEOPLE MOSTLY ULTIS

—FEATURE PICTURE—
BARBARA STANWYCK in "FORBIDDEN"
SAENGER THURSDAY
FRIDAY

Band Box Revue Is Coming to Saenger

Two-Day Engagement Will Begin on Local Stage Thursday

A bit of Broadway, with its gay white way and flashing lights, its theatres and musical revues, that is known to all followers of the theatre, will be seen at the Saenger theatre when the Band Box Revue, a smart modern musical comedy comes to Hope, opening for two days, beginning Thursday.

This revue features the latest style of stage presentation with gorgeous costumes and staging. The company of 18 artists features Ruth Royal, the popular national radio artist and her ensigns, in addition to a bevy of beautiful girls who sing and dance in solo and ensemble fashion.

Miss Royal, who for the past several seasons has starred over the national networks, is making her stage debut in this revue type show. She is an excellent singer and pianist, and her voice according to critics of the radio, compares favorably with that of Kate Smith, who is now starred daily over the Columbia chain.

The Ensigns, under the direction of Miss Royal, will prove popular as a stage band, with routine that is different from anything yet seen in the way of orchestral presentation. Besides affording the music for the production, they offer their own novelty and feature numbers. The Three Aristocrats, a male trio, afford excellent vocal harmony with the Ensigns.

A dance team that for several seasons excelled in revue work is also a feature of the Band Box Revue. Phyllis Jacklin and Beth Robbins, two winsome misses who feature solo and ensemble work. Other girls featured in the cast include Peggy Dowell, Muriel Bandy, Thelma Haynes and Marie Norwood. Mike Blackwell acts as master of ceremonies.

The Band Box Revue is well staged and routine and affords a program that is diversified, fast and well balanced.

The feature picture that day will be "Forbidden" with Barbara Stanwyck and Aldolph Menjou.

New Hope

Mr. and Mrs. Roberts and family Sunday at convenience.

Mr. and Mrs. Claude Cox and family are moving this week. We hope they will like their new home.

Mr. and Mrs. W. D. Watkins and daughter, Ethel, spent Sunday with Mr. and Mrs. A. J. Arrington and family.

We had a very good singing at this place Sunday night, however, there were some who did not know about it, and we hope next Sunday night they will come.

Mr. and Mrs. Horace Bumpus of near Washington passed through this community Sunday evening.

Mr. and Mrs. Hockett and family of Guernsey were the Saturday night guests of Mr. and Mrs. Mangrum; however they spent Sunday with her father, Mr. Lockard.

Mrs. Lloyd Hockett is spending a few days with relatives here this week.

Mr. and Mrs. Reece Arrington are going to move to their home this week. We hope they will like it fine.

WARNING ORDER
In the Hempstead Chancery Court.
The Federal Land Bank,
of St. Louis. Plaintiff
vs.
C. Spates, et al. Defendants.

The Defendants, G. C. Schoonmaker, Mrs. G. C. Schoonmaker, his wife; Mrs. T. J. Carter; Thomas Carter, and Virginia Carter, his wife; Gordon Carter; Phyll Carter; Nina Gill Carter; James Edward Carter; Robert Carter; and each of them, are warned to appear in this court within thirty days and answer the complaint of the Plaintiff, The Federal Land Bank, of St. Louis.

Witness my hand and the seal of said court this 8th day of Feb. 1932.
WILLIE HARRIS,
Clerk.

BILIOUSNESS CLEARED UP

BILIOUSNESS may show itself by a coated tongue, bad breath, headache, spots before the eyes, dizziness, poor appetite, "dopiness," but prompt relief may be expected from taking Thedford's Black-Draught.

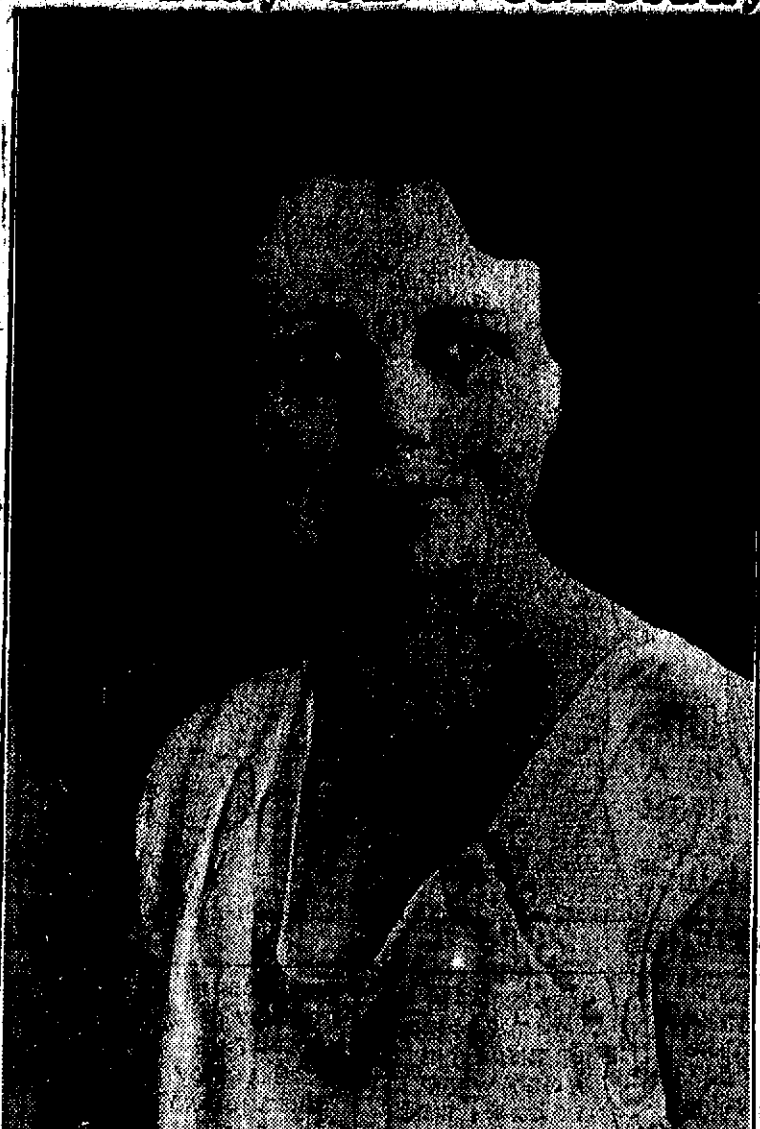

"When I got bilious, I had a bad taste in my mouth, and then severe headaches that put me to bed," writes Mrs. Anna Copeland, Anderson, S. C. "I found Black-Draught relieved this. I felt better after taking it. Black-Draught is a good medicine."

It would not have been used so long, or by so many, if it wasn't really good. Get a 25-cent package at the drug store, and try it.

Thedford's

BLACK-DRAUGHT

Director of P. T. A. Play on Wednesday

Mrs. Cornelius Ball, above, is Director of Harlequin Little Theatre of Arkansas College, Batesville, which will present the smart three-act comedy, "Just Call It Love" at Hope High School on Wednesday night, March 2, at 8:30 o'clock.

The local production is sponsored by the P. T. A., which is selling tickets in advance that a capacity house may see this delightful production.

According to "The Playbill" of September, "Arkansas College has every reason to be proud of its Little Theatre. It has at its head one of the most capable directors in the South, and it has to its credit the facts that it is the oldest college theatre in the state and that it has been the only organization of its kind to tour the state in order to stimulate interest in college dramatics. Dean Virgil Jones of the University of Arkansas is particularly generous in his praise of Harlequin Little Theatre's performance at the University and pays high tribute to its director, Mrs. Cornelius Ball."

Quoting the Helena World of July 21, 1931, "Recognized, not the talent and ability of Mrs. Cornelius Ball is widespread, not only in Arkansas, but throughout the country, her work as director of Harlequin Little Theatre of Arkansas College having been rated as the best not only in the State, but in the Southwest. Mrs. Ball endears herself to the hearts of every audience on account of her charm and warmth of personality."

Under Mrs. Ball's direction, Harlequin Little Theatre of Arkansas has won a national rating, having been runner-up in the National University Theatre Tournament at Chicago in 1929. Harlequin Little Theatre won the college competition in the State Theatre Tournament at Little Rock last year. Miss Doris Magnus, who played the lead in "The Cajun," will be seen as Ann Martin, the laughing lead in "Just Call It Love" on Wednesday evening, March 2. The cast is an all star one.

Splendid Program By Shover Pupils

Several Visitors in Attendance at Rural School Program Last Friday

Shover Springs School gave the following program Friday afternoon:
Song, "America the Beautiful."
Greetings—John Taylor Lager.
Washington—John Beckworth.

This Flag—Kenneth McWilliams.
Our George Washington—Marjorie McWilliams.

The remainder of the program was given on the school yard.
The Pine Tree, poem.
Trees—Pauline Light.
Dedication of tree.
Tree Grow On, song.
The pine tree was dug up and planted by pupils of the school.

About 25 visitors attended this interesting program.

Court Asked to Revoke Deal Made by Caldwell

ST. LOUIS, Mo.—(P)—Suit to compel the Inter-Southern Life Insurance company of Louisville, Ky., to repurchase real estate bonds and mortgages with a face value of \$2,040,000 now held by the Missouri State Life Insurance Company under a contract negotiated by Rogers Caldwell and his father, James E. Caldwell, of Nashville, Tenn., who formerly controlled both companies, was filed in Circuit Court here Monday.

The suit, filed in the name of Harvey H. Sims, St. Louis bridge contractor, who says he owns 300 shares of Missouri State Life Insurance Company stock, asked that stock of the Missouri State owned by the Kentucky company be impounded and a receiver appointed to hold and liquidate this stock to satisfy any judgment that might be returned in the litigation.

High School Asks Shrubby Gifts

Beautifulization of Grounds at High School to Be Given Attention

Since the spring days have appeared attention has been given to outside plants. The Junior-Senior High School Parent Teachers Association is making a call to the people of Hope for shrubbery for the new high school grounds. The landscape architect has specified the following list of shrubs: If you have any of these plants call Mrs. C. B. Lowthorp or Miss Arnold, at the high school, signifying what you will contribute. They will in time, call for this.

Evergreens—4 Juniperus Virginiana, red cedar, 2-3'; 13 Juniperus Virginiana, red cedar, 3-4'; 22 Savina Juniper, 1-2'; 6 Pfitzer Juniper, 2-3'; 8 pine, 6-8' pine, 8-10'; 5 pine 10-12'.

Shrubs—36 Abelia grandiflora; 8 Cydonia japonica, flowering quince; 17 Deutzia, hills of snow; 13 Eumonym japonica, japonica; 10 Forsythia inermis, Goldenbell; 4 Hibiscus, Alabama; 2 Philadelphus grandiflorus, Sweet Mock Orange; 3 Rhus typhina, Staghorn sumac; 1 Spiraea Anthony Waterer; 6 Symphoricarpos racemosa, Snowberry; 12 Symphoricarpos vulgaris, Coral berry; 7 Syringa vulgaris, common lilac; 6 Hydrangea; 6 Grape Myrtle; 161 Tall Privet; 10 Nandina domestica; 5 Sassafras; 25 Spiraea Van Houtte; 8 Viburnum; 6 Wigelia roses, pink wigilia.

Spring Lingerie Will Be Scanty

Chiffon and Lace Principal Materials in Night-robes and Pajamas

NEW YORK.—(P)—Spring has waded its way into the boudoir bringing with it lingerie, nightrobes and pajamas of white, shading from gardenia to creamy old ivory.

Lingerie is more sheer and scanty than ever, with chiffon and lace the leading materials used. Slips and chemises are mostly backless with the tiniest rolled straps extending clear to the waistline in back. The fitted brassiere top is generally featured.

Lace is used for a pajama ensemble with soft cream satin and designed along tailored lines. Chiffon is used for several new nightrobes with delicate, imported lace tops.

One of the latter has a narrow ribbon sash of mint green satin and is worn with matching satin mules. Lime green, saffron green, jade and lettuce are other fresh colors seen in robes, jackets and sandals.

Matching shoes, bag and gloves ensembles are shown in white kid. The straps of the shoes, the flaps of the bags and the cuffs of the gloves are decorated with eyelets daintily embroidered in red, blue or green silk to resemble star-like shapes.

Raspberry pink organdie embroidered in white flowers is the stuff whereof a dream of a dress for summery nights is made. The gown is trimmed with tiny ruchings about the skirt, the square neckline and the shoulder straps. A modern little jacket, hip length and with long, intricately fashioned sleeves completes the costume.

Belts are indispensable with the new jacket costumes. One is a unity belt of black suede is about three inches wide, with a buckle of Kelly green about 4 1/2 inches square. Other belts are of white kid braided with silver, gold, or colored kid.

Careful Bachelors

LONDON.—Scottish bachelors had better be careful this leap year. Seven hundred years ago the Scottish Parliament passed an act imposing severe penalties on any bachelor who refused a proposal in leap year. The act has never been repealed. The leap year is said to have originated in Scotland.

It Worked, All Right

SEATTLE, Wash.—To catch a thief that had been constantly stealing butter and eggs off his back porch, Marcus A. Naumann rigged up a clever trap. The trap worked—and how! Naumann forgot all about the trap and nearly hanged himself before he realized that he had walked into the trap accidentally.

Extension Service Program Outlined

Most Important Activities for 1932 Stressed by T. Roy Reid

Interest and co-operation of farmers in work of the state Agricultural Extension Service was better during 1931 than ever before, T. Roy Reid, assistant director in charge, said in announcing an increased program of activities for 1932.

Economic conditions have made the position of the farmer more precarious than that of most other occupations, Reid said. "As a result, farmers now have an appeal to more people than ever before. Many adjustments looking toward economy of production must be made if the farms are to maintain this position."

"First—The live-at-home program will be continued. It is the first duty and privilege of the farm to provide for the comfortable maintenance of the life on that farm. A real live-at-home program provides for the most wholesome, healthful, and satisfying of all foods, including home-cured and fresh meats, poultry and eggs, milk, butter, fresh vegetables and fruits, and apples of various kinds and dried products in the season when the garden and farm does not provide the fresh foods. The live-at-home program provides grain, hay and pasture for the stock, and other animals kept on the farm, and includes among these crops a reasonable amount of legumes to enrich the ration for the animals and to enrich the soil on which they are grown. This program provides for surplus crops of grain for food to be sold for cash to provide other sources of income and to maintain a comfortable home and furnish other satisfactions demanded by the present standard of living. The live-at-home program will continue to be one of the leading parts of the program of county agents and county home demonstration agents until it is generally practiced and becomes a fixed habit on most of the farms. Much headway has been made on it for the past several years."

"Second—Surveys are being made by county agents and county home demonstration agents to determine what things are now being imported in their counties and sold which can be successfully produced on and sold from the farms in their counties. When these facts are known, an effort is to be made to provide these products from home farms and thus give this additional source of cash crop production to home farms and keep the money in the local community. This will help the farmer, the merchant, and the consumer. In one Arkansas county seat town a potential source of \$200,000 additional cash income to farmers has been found, as a result of this survey of the local markets. This is another way in which county agents and county home demonstration agents are serving all Arkansas people this year."

"Third—The plans after growing the living at home and surplus cash crops to meet home markets include the further production of all the cash crops best known to the farmers of any particular section of the state. In most parts of the state this crop is cotton. Cheap production of cotton is urged—production at so low a cost that the cotton can be sold with some profit should the price not change materially."

"Fourth—The ordinary market machinery and methods have been put to a severe test, and in many cases
